ASHA DEEP

St. Xavier's College of Education does not teach its students only to apply themselves and make great careers. Instead it leads them to head out into the community and try things they haven't done before. On 25th Jan, 2019 a special Community Service programme was organised at Asha Deep Rehabilitation Centre. The trainees got an opportunity to empathise with the children, understand the harsh realities of life and thereby intermingle with them, help them and most importantly treat them with respect and dignity.

Every year the trainees visit this centre to have an experience of working with the differently-able children who are mentally or physically challenged. Here these children get access to high quality appropriate services. This was a kind of experiential learning, an approach to connect lessons learned in classrooms with real-life lessons through community service. The trainees with the help of the principal of the centre and their college professors distributed themselves in groups. Then, with different interesting and creative methodologies tried to help the children with their academics teaching them subjects like English, Hindi, Maths, Science etc. They conducted story-telling and singing sessions, imparted entertainment and education through play-way method, thus helping them increase their creative skills. Earlier these trainees had experienced teaching normal children in normal schools, but this was a very different experience of teaching children with special needs. They cherished dealing with these children. They all tried their best to bring smiles and happiness to the children. Finally the trainees presented a report upon their experience at the centre.

EDUCATIONAL EXCURSION

SXCE organised a one day educational excursion for B.Ed. students (2018-2020) on 27th Jan 2019. An educational excursion acts as the groundwork for enriched learning experiences. The principal purpose is to edify students, providing them hands-on-exposure to learn from a new set of proficiencies in a natural setting. Therefore, a field trip to

Pawapuri, Nalanda and Rajgir was organised under the proper guidance and supervision of the college principal, teachers and staff members. Three buses were arranged. First of all we visited "Jal Mandir" at Pawapuri. Then visited "Shanti Stupa" atop a hillock at Rajgir through a rope-way. Lastly, we visited the most primitive and renowned university and an exemplary seat of learning and education at Nalanda. With proper guidance and support of the whole SXCE family, the tour turned out to be a mobile classroom. Students learned and enjoyed and returned to their places safely with fresh perspective.

बीएड0 (२०१७ - २०१९) की विदाई समारोह

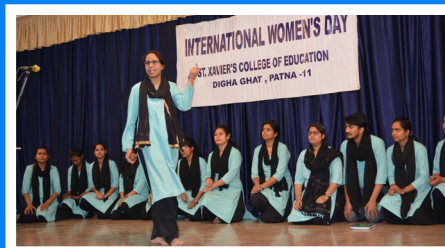

मुंबई 14 & नई दिल्ली 15 वीं तारीख : 14, 15 वीं तारीख के दिनों में बीएड0 के विद्यार्थियों के विदाई समारोह का आयोजन 28 अक्टूबर 2019 को हुआ, जिसमें 2017 & 2019 के विद्यार्थियों के बीच विदाई कार्यक्रम का आयोजन किया गया। कार्यक्रम में विद्यार्थियों को विदाई के रूप में एक छोटी सी वस्तु दी गई। कार्यक्रम में विद्यार्थियों को विदाई के रूप में एक छोटी सी वस्तु दी गई।

PLACEMENT CAMP BY SCHOOLS

Days at college gets tougher as students head towards the completion of their courses. This is the time when every student wishes that as they step out of their college, they could embark upon well paid potential jobs. This is where campus placements matter the most. SXCE plays a key role here by organising a 'Campus Placement'. This year a 'Placement Camp' was organised by SXCE on 2nd March, 2019. Father Principal, Dr. Thomas Varghese, gave a warm welcome to all the school coordinators and representatives. Dr. Madhu Singh and Mr. Sushil Kumar Singh, being the coordinators made the entire process smooth and efficient by making the student-teachers aware of the various rules and regulations of the campus selection. The different schools selected the candidates according to their requirements on the basis of interview and demo. Almost all the students got placed in one or the other school.

HUMAN RIGHTS

Understanding equality and human rights is one of the most legal duties of educational institutions. Adhering to this tradition, SXCE organised a one day seminar on 'Human rights' for B.Ed. students (2018-19) on 16th April, 2019. Rev. Father Philip Manthra, a member of PUCL was invited to develop students' understanding of equality and human rights. Father Manthra, before turning to the conceptual examination as to how could human rights be protected, addressed issues of perception with evidence of prejudices, harassment and victimisation. He showed different videos for developing students' understanding of egalitarianism. The trainees in turn felt empowered to tackle prejudicial and harmful behaviours, thus becoming aware of the role teachers could play in developing equality and human rights culture in society.

BLOOD DONATION

Donating blood is a noble and an active way of helping others and the whole society. A blood donation camp was organised in the college for the M.Ed. and B.Ed. students. Kurji Holy Family Hospital along with its team graciously came forth for this noble cause. To ensure the safety of the donors, the doctors team conducted a few medical tests needed to be eligible to donate blood. All those found in good normal health were allowed to donate blood. In total 53 students had registered for blood donation. However, 23 were found eligible to donate blood.
